

ANDREZA CAMPBELL

Long Island City, NY 11105 • (347) 358-2289 • campbell.andreza@gmail.com
Portfolio: <https://francorufino.github.io/portfolio/> • Github: <https://github.com/francorufino>

Highly committed and focused professional with over 15 years of experience as a Teacher and Executive Assistant with a passion for technology seeking to switch gears and pursue a career as a Front-End developer. Currently taking a React course to master skills in the Front-End area. Experience developing Android applications using APIs, Firebase, SQL, and other tools. A fast learner with excellent organizational, problem-solving, analytical, and teamwork skills. Fluency in English and Portuguese.

SKILLS

HTML5 | CSS3 | JavaScript6 | ReactJs | APIs | Bootstrap | NodeJS | Express | UX/UI Design | SQL | Git Hub | Firebase | Agile Methodology | Java | Android | PHP | Microsoft Office (Word, Excel, PowerPoint)

RECENT PROFESSIONAL EXPERIENCE

WHEDco – Bronx, NY – *Family Worker*

08/2021 – Present

- Collaborate with the registration and verification of the children's attendance and contact parents when the children are absent.
- Track each child's data in the system by preparing, updating, and maintaining detailed Excel spreadsheets.

RELEVANT PROJECTS

- **Idées de Boutiques (2022):** Developed an e-commerce website for selling full ready-made outfits using HTML, CSS, and JavaScript.
- **Bikcraft (2022):** Created an e-commerce website using HTML and CSS to sell customizable electric bikes.
- **Tindog (2021):** Used HTML and CSS to create a website for dog owners to find the love of their dog's life.
- **Lobo (2021):** Developed an online resume using HTML and CSS.
- **Highlanders (2020):** Used Vertical and Horizontal RecyclerView to develop an Android Java application.
- **Movie Addiction (2019):** Created an Android Java application displays a list of the latest movies and provides information from the API such as release date, duration, title, and rating. Used API, Firebase, and SQL and log in with Facebook, Google, and email.
- **The Impichimays (2019):** Developed an Android Java application that reunites videos from YouTube hosted by the YouTuber Kelsey Impiciche on BuzzFeed.
- **Mamma's Wish List (2019):** Developed an Android Java application that allows users to keep track of items they wish to buy.
- **Harvard Museums (2018):** Created an Android Java application that provides a virtual tour of 3 of the Harvard museums (i.e., Fogg, Arthur M. Sackler, and Busch-Reising) utilizing Firebase to save users' logins, and is currently active and available for download from the Google Play Store.
